STEEL BALL VALVES

BROEN BALLOMAX® - Steel ball valves - Full bore

DN 10 - 50	PN 25	Female	Female	High and low stem		11
DN 10 - 50	PN 25	Welding	Welding			11
DN 10 - 50	PN 25	Female	Welding	High and low stem.		12
DN 10 - 50	PN 25	Male	Welding			12
DN 15 - 25	PN 25	Welding	Male with cap and chain			13
DN 15 - 25	PN 25	Flange	Welding			13
DN 15 - 25	PN 25	Flange	Flange			14
DN 40 - 50	PN 40	Welding	Welding			16
DN 40 - 50	PN 40	Welding	Welding BROEN-Gear			16
DN 40 - 50	PN 40	Welding	Welding Flowoptimized			17
DN 40 - 50	PN 40	Welding	Welding BROEN-Gear Flowoptimized			17
DN 65 - 150	PN 25	Welding	Welding			18
DN 65 - 150	PN 25	Welding	Welding BROEN-Gear			18
DN 65 - 150	PN 25	Welding	Welding Flowoptimized			19
DN 65 - 150	PN 25	Welding	Welding BROEN-Gear Flowoptimized			19
DN 200 - 400	PN 25	Welding	Welding			20
DN 200 - 400	PN 25	Welding	Welding BROEN-Gear			20
DN 20 - 50	PN 40	Flange	Welding			21
DN 65 - 100	PN 25	Flange	Welding			21
DN 65 - 100	PN 16	Flange	Welding			21
DN 15 - 32	PN 40	Flange	Flange			22
DN 40 - 50	PN 40	Flange	Flange			22
DN 40 - 50	PN 40	Flange	Flange BROEN-Gear			22
DN 40 - 50	PN 40	Flange	Flange Flowoptimized			23
DN 40 - 50	PN 40	Flange	Flange BROEN-Gear Flowoptimized			23
DN 65 - 150	PN 25	Flange	Flange			24
DN 65 - 150	PN 25	Flange	Flange BROEN-Gear			24
DN 65 - 150	PN 25	Flange	Flange Flowoptimized			25
DN 65 - 150	PN 25	Flange	Flange BROEN-Gear Flowoptimized			25
DN 200 - 400	PN 25	Flange	Flange ISO-flange			26
DN 200 - 400	PN 25	Flange	Flange BROEN-Gear			26
DN 65 - 150	PN 16	Flange	Flange			27
DN 65 - 150	PN 16	Flange	Flange BROEN-Gear			27
DN 65 - 150	PN 16	Flange	Flange Flowoptimized			28

BROEN BALLOMAX® - Hot tap tool

DN 15 - 100	PN 25	Hot tap tool - Full bore & reduced bore	99
DN 15 - 100	PN 25	Hot tap tool - product overview	100
DN 15 - 50	PN 25	Hot tap tool - Spare parts and consumables for tools delivered from January 2023 onwards	101
DN 65 - 100	PN 25	Hot tap tool - Spare parts and consumables for tools delivered from January 2023 onwards	102
DN 15 - 50	PN 25	Hot tap tool - Spare parts and consumables for tools delivered by December 2022	103
DN 65 - 100	PN 25	Hot tap tool - Spare parts and consumables for tools delivered by December 2022	104

BRANCHING VALVES

BROEN BALLOMAX® - Branching valves - Reduced bore

DN 20 - 50	PN 40	Welding	Welding	105
DN 65 - 100	PN 25	Welding	Welding	105
DN 125 - 200	PN 25	Welding	Welding	106

BROEN BALLOMAX® - Branching valves - Full bore

DN 15 - 50	PN 40	Welding	Welding	107
DN 65 - 100	PN 25	Welding	Welding	107
DN 125 - 150	PN 25	Welding	Welding	107

TRUNNION MOUNTED STEEL BALL VALVES - EN 488

BROEN BALLOMAX® - Trunnion mounted steel ball valves - Reduced bore

DN 150 - 500	PN 25	Welding	Welding	HEX	108
DN 150 - 1000	PN 25	Welding	Welding	ISO-flange	109

BROEN BALLOMAX® - Trunnion mounted steel ball valves - Full bore

DN 150 - 400	PN 25	Welding	Welding	HEX	110
DN 150 - 1000	PN 25	Welding	Welding	ISO-flange	111

UNDERGROUND VALVES - EN 488

BROEN BALLOMAX® - Ball valves for preinsulation - Reduced bore

DN 25 - 100	PN 25	Welding	Welding	112
DN 125 - 400	PN 25	Welding	Welding	112
DN 125 - 500	PN 25	Welding	ISO-flange	113

BROEN BALLOMAX® - Ball valves for preinsulation - Full bore

DN 25 - 150	PN 25	Welding	Welding	113
DN 200 - 300	PN 25	Welding	Welding	114
DN 125 - 300	PN 25	Welding	ISO-flange	114

ACCESSORIES FOR UNDERGROUND VALVES - EN 488

Service ball valves - Reduced bore

DN 25 - 50	Accessory	Welding	PN 25	115
DN 25 50 80	Accessory	Welding	PN 25	115
DN 25 50 80 100	Accessory	Welding	PN 15	115
DN 25 50	Accessory	Welding	PN 25	116

Service ball valves - Full bore

DN 25 50 80	Accessory	Welding	PN 25	116
	Accessory	SQ adapter		116
DN 20 - 150	Accessory	Flex extension		117
DN 80 - 300	Accessory	Flex extension		117
DN 80 - 350	Accessory	BROEN-Gear- Portable gear		118
DN 80 - 400	Accessory	BROEN-Gear- Planetary gea		118
	Accessory	Universal allen key		118
DN 150 - 500	Accessory	BROEN-Gear- Bevel gear		119
DN 150 - 500	Accessory	BROEN-Gear- Bevel gear		119
DN200-500	Accessory	Telescopic extension		119
DN 20 - 200	Accessory	BROEN BALLOMAX® Repair-set		120
DN 150 - 500	Accessory	BROEN BALLOMAX® Repair-set		120

BROEN – A global partner

A global company with local knowledge

Even though BROEN is an international company exporting to more than 50 countries, we are always close to you through our comprehensive network and partners. This assures you easy access to our services and profound knowledge of local conditions.

We have more than 600 staff members as well as companies and cooperation partners all over the world. Our staff members create strong relations across business areas and borders and provide BROEN with a flexible and loyal foundation for the best possible service to our customers.

At BROEN we are always focusing on innovation and integrated solutions, for the benefit of people in daily life. We cherish knowledge and experience and use it to create new initiatives and products.

Furthermore, BROEN is part of Aalberts Industries N.V. listed on the stock exchange in Amsterdam.

For further information go to www.broen.com and www.aalberts.com.

BROEN BALLOMAX® Approvals

For more than 40 years BROEN has pioneered in district energy by constantly pursuing and refining valve technology for heating and cooling applications and is today a trusted and preferred supplier for long lasting, efficient energy solutions.

BROEN ApS has been ISO 9001 certified since 2001 and today holds the certificate ISO 9001:2015.

BROEN BALLOMAX® steel ball valves have been approved according to the requirements of Pressure Equipment Directive (PED) 2014/68/EU, module H. Module H is the module for complete quality control.

All BROEN BALLOMAX® fittings are subjected to a pressure and function test in accordance with EN 12266.

Requirement level: Leak rate A = no visible leakage.

Valves up to and including DN32 are produced according to Section 4.3 of the Directive and require no CE mark.

Specific unified standards applied: Directive PED 2014/68/EU, EN 488:2015 EHP003, EN ISO 9601-1, EN ISO 14732, EN ISO 15613, EN ISO 15614, EN 12266.

Climate change is our common challenge

Energy efficiency is one of the greatest challenges of our times and for district energy BROEN delivers ready solutions to meet the globally rising demand for energy efficiency.

Based on the heritage from leading edge innovations in Danish district heating, BROEN BALLOMAX® offers the most comprehensive range of proven ball valves for distribution and transmission of district energy in residential, commercial and industrial applications and are today a key component in district heating and district cooling networks throughout the world.

BROEN ApS is ISO 9001:2015, 14001:2015 and 45001:2018 certified.

Our brand is our promise.

BROEN BALLOMAX® – our response

For more than 30 years the reliable design of BROEN BALLOMAX® has proven itself and it remains the best choice in district heating today.

Thus, BROEN BALLOMAX® is competitive when it comes to Low Cost of Ownership - the valve lasts as long as the district heating network.

BROEN offers complete solutions for district energy – valves, actuators, gears, flanges and spindle extenders.

The most recognized valve technology is not something we just claim, but something we have to live up to every single day.

To us quality is not just a key to market access – it goes far beyond that.

BROEN BALLOMAX® is your certainty of energy efficiency, reliability and low operating costs.

BROEN BALLOMAX® energy efficiency - designed to last.

Pls. see District Energy on www.broen.com or contact our technical support for further technical product information.

We reserve the right to make changes and are not responsible for typographical errors. All rights reserved.

Steel ball valve DN 15 - 50, PN 25

Type BBM 12031
Full bore
Female x Female
- high and low stem

Flexible main stop valve DN 15 - 25, PN 16

Type 69301
 Reduced bore
 Copper × Female

DN	Copper-end	BROEN No.
15	Ø 18 × 1,0	69301018 025
20	Ø 22 × 1,0	69301022 025
25	Ø 28 × 1,2	69301028 025

Description: Flexible main stop valve for house inlets. As standard delivered with red and blue T-handles.

Flexible main stop valve DN 20 - 25, PN 16

Type 69302
 Reduced bore
 Welding × Copper

DN	Copper-end	BROEN No.
20	Ø 22 × 1,0	69302022S251100
25	Ø 28 × 1,2	69302028S251200

Description: Flexible main stop valve for house inlets. As standard delivered with red and blue T-handles.

Flexible main stop valve DN 20 - 25, PN 16

Type 69302
 Reduced bore
 Copper × Copper

DN	Copper-end	BROEN No.
20	Ø 22 × 1,0	69302022 025
25	Ø 28 × 1,2	69302028 025

Description: Flexible main stop valve for house inlets. As standard delivered with red and blue T-handles.

Flexible main stop valve DN 20 - 25, PN 16

Type 69.301V
 Reduced bore
 Copper × Female

DN	Copper-end	BROEN No.
20	Ø 22 × 1,0	69301V22 025
25	Ø 28 × 1,2	69301V28 025

Description: Flexible main stop valve for house inlets. As standard delivered with red and blue T-handles.

Flexible main stop valve DN 25 - 32, PN 40

Type 69300
 Reduced bore
 Female × Female

DN	BROEN No.
25	69300025 025
32	69300032 025

Description: Flexible main stop valve for house inlets. As standard delivered with red and blue T-handles.

Flexible main stop valve DN 25 - 32, PN 40

Type 69301
 Reduced bore
 Welding × Female

DN	BROEN No.
25	69301025 025
32	69301032 025

Description: Flexible main stop valve for house inlets. As standard delivered with red and blue T-handles.

Flexible main stop valve DN 25 - 32, PN 40

Type 69302
 Reduced bore
 Welding × Welding

DN	BROEN No.
25	69302025 025
32	69302032 025

Description: Flexible main stop valve for house inlets. As standard delivered with red and blue T-handles.

Flexible main stop valve
DN 25, PN 40

Typ 69.301V
Reduced bore
Welding × Female

DN	BROEN No.
25	69301V25 025

Description: Flexible main stop valve for house inlets. As standard delivered with red and blue T-handles.

Flexible main stop valve - Cabinet
DN 20, PN 25

Type 69620
INSULATION SHELLS incl.

Repair set include tools and 5 gaskets for repair.

BROEN can also supply electric actuators for the valves.
Please ask BROEN sales department for information about types.

BROEN can additionally provide 3.1 Certificate for the valves.

Example for valve with electric actuators:

BROEN BALLOMAX® monoblock and short valves

BROEN BALLOMAX® monoblock and short valves offers a safe and modern construction for district heating networks, air conditioning and industrial installations with water, air, steam, gas and oil.

The monoblock and short valves are suitable for tight spaces fitting narrow build-in requirements when re-configuring or renovating pipelines. The valve is tested and subjected to a 100% quality control before leaving the factory and it therefore requires minimal service for the rest of its life.

Both the ball and the spindle are made from stainless steel.

- All CE-marked valves are approved according to PED 2014/68/EU - module H
- Highest Class A tightness - EN 12266
- Double sealing : O-ring (EPDM), VITON,
- Temperature compensation (linear)
- Double bearing spindle system, diameter $\geq$ DN65
- Operating temperature from -20°C to $+200^{\circ}\text{C}$

Valve with gear is tested and prepared for use.

BROEN BALLOMAX® Fully welded trunnion mounted steel ball valves

Our fully welded BROEN BALLOMAX® trunnion mounted ball valves can be delivered for operation above ground level with a range of features and advantages:

- Our Double Block and Bleed (DBB) system is certified by Bureau Veritas
- Lubrication system (standard from DN 350 upwards)
- 3.1 traceability certificate for material is available on request
- The valve can be delivered either as full bore or reduced bore
- Delivery with or without base plate

Technical features:

- Compliance with PED 2014/68/EU - Module H
- Functional and pressure test according to EN 12266-1 and -2
- Flange dimensions acc. to EN 1092-1
- Butt-weld ends according to EN 12627
- Actuator mounting flange ISO 5211
- Electro less nickel Plating ISO 4527
- Optional stainless steel ball
- For underground installations

We recommend to add a BROEN gear.

The synergy of configuring the right gear to the task and making a ball valve operate seamlessly for years is a specialist task and with our experience and know-how, our in-house experts strive to deliver ready solutions, that will operate with a minimum of downtime.

We know, that the ready solutions that operate with a minimum of time is a core function for customers' applications.

We counsel and advice our customers all the way to ensure, that valve, gears and cabling are optimized to each other and we deliver regulated and commissioned valves to validate the operation of the valves.

BROEN is able to deliver valves with electric or hydraulic actuators, as well as manual gears from any proven supplier.

In case you have a special requests we can deliver the solution.

For further information please get in contact with the BROEN BALLOMAX® sales department.

Accessories	Dimension	Description
	DN 150 - 1000	Columns.
	DN 150 - 1000	BROEN-Gear.
	DN 150 - 1000	BROEN-Gear, Electric gear.
	DN 150 - 1000	Lubrication fitting NPT.
	DN 150 - 1000	Drain ball valve and pipe for Double Block and Bleed (DBB) with the following valve options DN 25 - 32 - 40 - 50.
	DN 150 - 1000	Base.

BROEN Butterfly valves

BROEN triple eccentric butterfly valves for district heating offer a safe and modern construction for use as a shut-off valve and regulating valve in district heating and district cooling systems, but is also in operation in oil, gas and steam applications.

The triple eccentric butterfly valves have a metal/metal sealing available. This concept means there is no traffic friction during opening and closing of the butterfly valve. The disc loses contact with the seat immediately after the start of opening.

The valve features Class A tightness in both flow directions at a low closing torque and efficient opening at the maximal differential pressure. This secures a long life of the seal.

The safe and robust construction requires minimal service, and any gear or actuators can be changed without operational interruption.

In addition to its shut-off function this valve may be used as a regulating (control) valve. The mechanical worm gearboxes mounted on the butterfly valves are fitted with a disc opening angle indicator.

- All CE-marked valves are approved according to PED 2014/68/EU - module H
- Triple eccentric butterfly valve with metal/metal sealing
- Highest Class A tightness - EN 12266
- No periodic service
- Gearbox or actuator can be changed without removing the valve from the pipeline
- Vertical and horizontal installation
- Temperatur -30°C til +425°C

Ever since BROEN was established
our passion for valve technology has been
a major part of our core competences.

Our brand is our promise.

1. Application of terms of sale and delivery

- 1.1 The below general terms of sale and delivery shall apply for any quotation, order confirmation, sale and delivery by BROEN in the absence of any other agreement in writing between the parties.

2. Product information, price lists, etc.

- 2.1 Information in catalogues, price lists and any other product documentation provided by BROEN shall be binding on BROEN only where the agreement with the purchaser makes specific reference to such information. BROEN shall reserve the right to change information without notice.
- 2.2 All drawings and technical descriptions supplied to the purchaser shall remain the property of BROEN and may be used only for the operation and maintenance of the products supplied by BROEN. The material may not be copied, reproduced, passed on to or in any other way communicated to any unauthorized third party.

3. Prices and terms of delivery

- 3.1 Unless otherwise stated all prices in BROEN's quotations, order confirmations and other references are in Danish kroner (DKK) exclusive of VAT, customs duties, taxes, etc. Unless otherwise stated in the above material BROEN shall reserve the right to adjust prices until delivery in the event of changes in currency rates, customs duties, taxes or raw material prices.
- 3.2 Unless special terms of delivery have been agreed upon in writing, delivery shall be made in conformity with the Incoterms 2010, EXW. The prices stated by BROEN are in conformity with these terms of delivery.
- 3.3 The prices stated by BROEN are exclusive of the costs of packaging, including special packaging to ensure that the products are not exposed to damage in transit to the final destination. Unless otherwise agreed in writing, Euro pallets and pallet frames used will be invoiced the Purchaser. Return of Euro pallets and frames is not accepted.
- 3.4 For orders below Euro 300 net invoice value, or equivalent converted currency value, a handling fee of Euro 30 net, or equivalent converted currency value, applies.

4. Export

- 4.1 Unless otherwise agreed in writing it shall solely be the responsibility of the purchaser to ensure that the products sold can be legally applied in the purchaser's country and for the purposes intended, including their approval, if any, by public authorities or private persons for importation and application.
- 4.2 Unless otherwise agreed in writing, all costs of Irrevocable Letters of Credit (L/C) and costs of external produced verification documentation is to be carried by the purchaser.

5. Acceptance of quotations

- 5.1 Where BROEN makes a quotation that contains no stipulated date of acceptance, the quotation shall lapse in the event it is not accepted by the purchaser 30 days after the date of the quotation.

6. Time of delivery

- 6.1 Unless otherwise stated in writing in BROEN's quotation or order confirmation or in the agreement between the parties the time of delivery indicated by BROEN shall be indicated to the best of BROEN's judgment. In the event that the date of delivery is exceeded, the purchaser can by notification in writing to BROEN demand delivery and set a reasonable date not less than three weeks away. In the event that BROEN does not deliver within this extended period and where the non-delivery is not caused by circumstances attributable to the purchaser, the purchaser can by written notification to BROEN cancel the agreement with regard to the part consignment that has not been delivered. The purchaser shall not be entitled to make any claim vis-à-vis BROEN as a consequence of the delay.
- 6.2 In the event of strikes, lockouts, import restrictions, acts of God or other causes beyond BROEN's control, BROEN's time of delivery shall be extended by a period identical to the duration of the obstacle in question. Non-delivery or delayed delivery of raw materials from BROEN's sub-suppliers shall be considered acts of God and shall thus extend BROEN's time of delivery. In the event that the obstacle means that delivery cannot be effected or only at unreasonably high costs, BROEN shall retain the right to cancel the agreement.

7. Terms of payment

- 7.1 Provided credit is approved, BROEN's terms of payment are current month from the date of invoice plus 20 days.
- 7.2 In the event of payment after the due date BROEN shall be entitled to charge interest on overdue payments, at present 1% per month, to be calculated from the due date. In addition to this there will be an administration fee for reminders of minimum Euro 30 net, or equivalent converted currency value (or the maximum amount allowed by law at any time).
- 7.3 Payment can only be effected to BROEN's address unless stated otherwise on the invoice.
- 7.4 The purchaser shall not be entitled to off-set any claim he may have against BROEN (unless this claim has been accepted by BROEN in writing) and shall not be entitled to retain part of the purchase amount on account of such counterclaims.

8. Retention of ownership

- 8.1 BROEN shall retain ownership of the products sold until payment in full has been effected with the addition of interest and possible costs. The purchaser shall not be entitled to make arrangements that limit BROEN's retention of ownership.

9. Invoicing

- 9.1 BROEN will issue and forward invoices electronically. In the event of purchaser requirement for printed and posted invoicing, a handling and postal fee of Euro 2 net, or equivalent converted currency value, applies.

10. Liability for defects and product liability

- 10.1 Immediately after delivery the purchaser shall examine the products received. Defects that are found or should have been found during this examination or defects that are found later shall without delay and not later than seven days after the defect is found or should have been found be communicated in writing to BROEN. The purchaser shall under no circumstances be entitled to claim compensation for defects from BROEN later than one year after the date of delivery.
- 10.2 BROEN shall be entitled to decide whether the defects can be repaired or the defective products must be replaced. Such replacement and/or repair of defects will be made as soon as possible after the return of the product to BROEN.
- 10.3 The purchaser shall only be entitled to return sellable standard products and only following prior acceptance in writing from BROEN. BROEN reserves the right to refuse return of products at BROEN's sole discretion. The freight costs of the returned products shall be paid by the purchaser. The reimbursement for returned products shall be calculated on the basis of the original sales price with a deduction reflecting the costs of preparing the products for a new sale. This deduction will be fixed after the receipt of the products and after an assessment of the state of the products, the deduction will, however, amount to minimum 30% of the sales price.
- 10.4 Apart from the stipulations of clause 10.1/10.2 the purchaser shall not be entitled to make any claims to BROEN on account of defective products.
- 10.5 BROEN shall be liable for injuries to persons and damage to property as a result of defects in the products supplied (product liability) solely to the extent laid down in non-dispensable rules of law. BROEN shall not be liable for damage to the purchaser's real or personal property or to any other real or personal property belonging to a third party intended for commercial use.
- 10.6 Particularly for brass products it must be emphasized that BROEN shall not be liable for damage to the products or damage attributable to the products as a result of stress corrosion, dezincification and galvanic corrosion unless BROEN has in writing taken on such liability. In the event that BROEN has taken on such liability these general terms of sale and delivery shall apply with the exception of this clause.

11. Exemption from liability

- 11.1 BROEN shall be exempt from liability to the purchaser in the event of circumstances that prevent the fulfilment of the agreement or that make the fulfilment unreasonably burdensome, such as labour conflicts and any other circumstances beyond the control of BROEN, e.g. fire, war, mobilisation or similar military measures, seizures, currency restrictions, riots and civil unrest, lack of means of transportation, general scarcity of goods, restrictions regarding motive power as well as defective or delayed deliveries from sub-suppliers due to any of the circumstances mentioned in this clause.
- 11.2 BROEN shall under no circumstances be liable for trading losses, losses of profit or other indirect losses or other consequential losses, including the costs of establishing or localizing defective products or damage.

12. Settlement of disputes - venue

- 12.1 Any dispute between BROEN and the purchaser in relation to an agreement between the parties or in relation to the interpretation of these general terms of sale and delivery shall be settled in accordance with Danish law and at BROEN's venue. BROEN shall be entitled to demand that any dispute is settled by arbitration in accordance with the rules and stipulations of the Danish Institute of Arbitration (Det Danske Voldgiftsinstitut).

Our brand is our promise

BROEN

VALVE TECHNOLOGIES

BROEN VALVE TECHNOLOGIES

BROEN is a leading international manufacturer of valve technology and we operate on three continents across the world with key markets in Europe, China and USA.

For more than 75 years BROEN has been the global leader in the development and production of valve technology for the control of water, air and gas. BROEN delivers complete solutions for HVAC building installations and is a leading supplier of district energy valves and valve technology for natural gas.

We know application and valve technology in depth and in close dialogue with our customers and partners all over the world we create value and reliability with proven valves offering full quality assurance.

BROEN is headquartered in Assens, Denmark and is part of Aalberts N.V. listed on the EuroNext Stock Exchange (NL).
